## PREFACE

Fisheries Department publishes **Fishery Statistical Yearbook of Bangladesh** every year. This yearbook contains information about catch statistics from July 2003 to June 2004. Present report is the 21<sup>st</sup> in the series.

This report comprises fish & shell fish catch (landed) by sector, habitat, species and district-wise. Information on the carp spawn collected from natural sources & spawn produced through induced breeding in hatcheries for aqua-culture; export fish & fish product and other related matters are presented in the report. The Riverine, Beel & Baor catch is estimated on the basis of frame survey of water bodies & fishing units conducted during 1981-1983.

It is hoped that this report will be useful for planning, development and management of the fisheries in Bangladesh.

Any constructive comments and suggestions for improving the fishery statistics would be highly appreciated.
